Product Description

Easy to design and apply according to the following steps: Step 1: Spray water on the back of patch (don't to tear off the glue). Step 2: Put the patch on the right place of desired garment to avoid deviation (or sew the patch on garment at first). Step 3: Set iron temperature for cotton. Cover patch with a piece of damp cloth and iron for 10-20 seconds. Step 4: Turn garment inside out and iron for 5-10 minutes to make sure the glue has melted. The patch is fixed on garment firmly. Step 5: At last, iron the edge and corner of the patch from the garment front to ensure surface smoothly. Then you can get a handicraft, patch and clothes (or other textiles) perfect fusion. Note: You can either sew on or iron on all patches we sell. Permanent of application guaranteed by sewing. Don't use on fabrics (low melting point) which can not to be ironed, such as nylons, vinyls, or leathers.

 The beads are removable and you can adjust the length. This is perfect for me because I am shorter and the original length fit too low on my torso
